EXPERIENCE

KIIT E-Cell | *Web Dev Intern* — Sep 2024 – Present
- Built MERN Stack course dashboard, boosting onboarding efficiency.
- Integrated Google Sheet API for automated leaderboard updates.
- Optimized performance, reducing load times for better UX.

Banao Technologies | *Full Stack Developer* — 2024 – Present
- Developed UI components for photonBoxx, improving responsiveness by 25%. Link
- Fixed 15+ UI bugs, increasing uptime by 20%.
- Optimized CRUD operations for HobbyCue admin routes. Link

PROJECTS

E-Cell Cohort ⧉ | *MERN Stack* — 2024
- Built MERN Stack site with real-time updates for user engagement.
- Automated leaderboard at KIIT E-Cell for efficiency.

NoteNinja ⧉ | *React.js, Node.js* — 2024
- Created UI with React.js and backend with Node.js using Gemini APIs.
- Enabled text/audio summarization with optimized processing.

ToDoAgent ⧉ | *MERN Stack* — 2023
- Developed prompt-based task tool to boost team productivity.
- Deployed on Render for scalability.

ACTIVITIES

National Basketball Player | *Athlete*
- Represented state and college at national competitions.

Smart India Hackathon 2024 | *Competitor* — 2024
- Top 50 team from college.
